“ *Chris, I am so sorry for your loss. But, I am so thankful that you published it in the Sacramento Bee. Otherwise , of course, I never would have known.*

I will always remember this quote from Bob: "Volunteers are never late". I have remembered and used that so many times over the years.

I wanted to keep in touch with you, but somehow that didn't happen. I will forward my phone and e-mail to the funeral home in a separate envelope. If, after life settles down for you, if you would like to contact me I would love to hear from you.

My sincere condolences to you and the boys and the rest of the family. I no this is a terrible loss for all of you.

Sincerely, Betty Phillips

“ *Chris and family,*

Sorry to hear of your loss. Bob trained me on the resiliometer testing device at the Caltrans laboratory when I reported in 1969. We worked there until he retired. He was a conscientious hard working engineer.
