“ *Debbi and beloved family,*

*Denny and I graduate high school together Denny was my friend. I may not of seen much of him over the years but I always considered him as my friend. I remember us scuba diving the first time we had enough money to buy a tank 2 face mass and a regulator went down in old strip we use to swim in. Then later we started diving at Lake Norfork down in Mountainhome Arkansas we had plenty of fun times down there. I can remember helping Denny put that hemi engine in his Dodge duster in the wintertime under a tent, chalk in hand Denny using a cutting torch he'd cut a little then bring out a sledgehammer but we got it in there; those were good times. Then he got married to the love of his life. The wedding was something else us in our tux's and the reception at the Elks lodge down in Imperial was a lot of fun.*

*I never saw him much over the years it was more my doing then his. Not really sure why maybe to much work not enough play but always try to keep in touch at Christmas time.*

*I will miss you Denny.*

*Those we love don't go away they walk beside us every day unseen unheard but always near still loved still missed and very dear. May the light of heaven shine upon you.*

*Pat* 🍀

“ *Bob and I have a lot of memories with Denny and Douglas, like riding cycles, and dirt bikes, shooting, working on cars, and Denny even helped me build the house we're living in today. He was always willing to help, and a great guy. He'll be sorely missed. Prayers to the family, and may God bless!*

“ Dennis and I hunted and fished together for about 40 years. He was a man that new something about everything. There was nothing he couldn't fix our a problem he couldn't solve. He always had a solution or and idea to fix a problem. On one of or hunting trips the wheel bearing went out in my Chevy Blazer. This happened on hwy 61 ( before it was 4 lanes and before cell phones) It happened late at night with no town or house in sight. We took the tire off and pulled the wheel bearing out , and as always Denny had an idea. He took baling twine wrapped it as tight as he could get it where the bearing was put a ton of grease on it and put the tire back on. I laugh and said there is no way this is going to work. We then drove the Blazer about 2 miles to a house where we called for help. You will truly be missed Mike Willingham
